**RE: Andeavor Field Services LLC — 8" &
6" NGL Pipelines – McKenzie, Billings,
Stark Counties, North Dakota
Case Number PU-18-72**

Dear Pat:

Andeavor Field Services LLC ("Andeavor") is in receipt of your letter dated February 14, 2018 and received on February 20, 2018 requesting contact information to allow the North Dakota Public Service Commission ("Commission") to deliver notification of Andeavor's siting application to various entities. It appears this information request combines requirements outlined in North Dakota Century Code § 49-22-16(2)(d)¹ and North Dakota Administrative Code §§ 69-06-01-02 and 69-06-05-01.

As set forth in the application filed with the Commission on February 5, 2018 (Docket No. 1), the corridor Andeavor is seeking designation by the Commission is a 200-foot-wide corridor. Pursuant to N.D.C.C. § 49-22-16(2)(d), there are no townships with "retained zoning authority," in which any part of the proposed corridor is located.

¹ Senate Bill No. 2286 updated North Dakota Century Code Sections 49-22-03, 49-22-14.1, and 49-22-16, relating to energy conversion and transmission facility siting to provide efficiency to the PSC approval process for siting gas or liquid transmission pipelines, including by adding North Dakota Century Code § 49-22-16(2)(d). Additionally, House Bill No. 1144 split the North Dakota Energy Conversion and Transmission Facility Siting Act, codified as Chapter 49-22, into two separate chapters. House Bill No. 1144 created Chapter 49-22.1 to address gas or liquid transmission facilities and gas or liquid energy conversion facilities, while amending Chapter 49-22 to pertain only to electric transmission and electric energy conversion facilities. It appears the language found in § 49-22-16(2)(d) relating to gas or liquid energy conversion facilities was inadvertently not transferred to Chapter 49-22.1.

Pursuant to North Dakota Administrative Code § 69-06-05-01(5), the Commission is required to serve notice of the filing of a complete application on the “chief executive officer of each city within the designated corridor.” *See* N.D.A.C. § 69-06-05-01(5)(a). There are no cities located within the proposed designated corridor requiring notification of the filing of the complete application.

The Commission is also required to serve notice of the filing of a complete application on the “chairman of the board of county commissioners of each county in which any part of the designated corridor is located.” *See* N.D.A.C. § 69-06-05-01(5)(c). The contact information for the chairman of each board of county commissioners is as follows:
